Woellner, R. C., 1006.
Wolff, D., 517.
Woolner, L. B., 810.

YOSHIDA, M., 661, 1083.
Yoshikawa, Y., 661.

Index of Titles

ACOUSTIC Trauma, Some Aspects of the Biochemistry of. Yasushi Koide, Masaru Konno, Yoshie Yoshikawa, Makoto Yoshida, Yuichi Nakano, Masao Nagaba and Masanori Morimoto, 661.

Adenoidectomy and Tonsillectomy, Blood Loss During, Measured with Radioisotopes. R. L. Ruggles, 360.

Allergy (Yeast and Fungus), Combining Antibiotic with Antigen Therapy in Cases of T.O.E., Ben T. Withers, 309.

Anesthetics, Effects of, Upon the Ear. II. Procaine Hydrochloride. W. E. Rahm, W. F. Strother, W. L., Gulick and J. F. Crump, 969.

Aphasia, Some Clinical Aspects of. Joe R. Brown, 1214.

Aphasic and Deaf Children, Neurologic Observations on a Population of. Robert Goldstein, William M. Landau and Frank R. Klaffner, 756.

Aphasic and Deaf Children, Vestibular Responses of Some. Benjamin Rosenblüt, Robert Goldstein and William M. Landau, 747.

Arytenoidectomy in Children. Robert E. Priest, Harold S. Ulvestad, Frank Van de Water and Robert J. Richardson, 869.

Atresia, Posterior Choanal. Daniel C. Baker, Jr., Jules G. Waltner and William Novick, 805.

Audiometry, Variables Involved in Automatic. Aubrey Epstein, 137.

Auditory Discrimination and Visual Perception in Good and Poor Readers. C. P. Goetzinger, D. D. Dirks and C. J. Baer, 121.

BONE Conduction, the Mechanism of. George W. Allen and César Fernandez, 5.

Bronchogenic Carcinoma, Occult. John R. Hilger, 1131.

Bronchographic Contrast Media, Toxicity of. Philip M. Johnson, Walter R. Benson, William H. Sprunt, III, and William A. Dunnagan, 1102.

CANCER, Laryngeal, Cinefluorography in the Pre- and Post-operative Management of. John A. Kirchner, James H. Scatliff and Donald P. Shedd, 768.

Cancer, Psychological Considerations in the Management of. Daniel Miller, 236.

Carcinoma, Adenocystic, an Unusual Case of the Parotid Gland. William Lippy, Charles Giffin and William H. Saunders, 340.

Carcinoma of the Glottis, Early Invasion of the Thyroid Gland in. Ricardo Tapia Acuña, 882.

Carcinoma of the Larynx. Brian F. McCabe and John E. Magielski, 1013.

Carcinoma of the Larynx, Reappraisal of Seventy-Five Cases of Radical Neck Dissection for. George F. Reed and James B. Snow, Jr., 271.

Carcinoma of the Larynx, Role of Radiation Therapy in. Joseph L. Goldman and Sidney M. Silverstone, 890.

Carcinoma, Occult Bronchogenic. John R. Hilger, 1131.

Cerebral Cortex and Hearing. Lamar Roberts, 830.

Cholesteatoma, Lurking Latent. Victor Goodhill, 1199.

Cinefluorography in the Pre- and Postoperative Management of Laryngeal Cancer. John A. Kirchner, James H. Scatliff and Donald P. Shedd, 768.

Cochlea, Components of Electrical Responses Recorded from. Nelson Yuan-sheng Kiang and William Tower Peake, 448.

Cochlea, Human, Responses to Sound Stimuli. R. J. Ruben, J. E. Bordley, G. T. Nager, J. Sekula, G. G. Knickerbocker and U. Fisch, 459.

Cochlear Microphonics, Biochemical Changes in the Inner Ear Induced by Insulin in Relation to. Yasushi Koide, Shigeo Tajima, Makoto Yoshida and Masaru Konno, 1083.

Cochlear Temperature, Effects on Round Window Potentials of Localized Changes in. Alfred H. Chambers and George G. Lucchina, 698.

Contrast Media, Bronchographic, Toxicity of. Philip M. Johnson, Walter R. Benson, William H. Sprunt III and William A. Dunnagan, 1102.

Counter-Rolling, Loss of the Eyes in Three Persons Presumably Without Functional Otolith Organs, Richard C. Woellner and Ashton Graybiel, 1006.

Cupola, Ampullary, Histogenesis of the. Consuelo Savin, 142.

DEAF and Aphasic Children, Neurologic Observations on a Population of. Robert Goldstein, William M. Landau and Frank R. Klaffner, 756.

Deafness Due to Mumps, Inner Ear Pathology in. J. R. Lindsay and Paul H. Ward, 918.

Deafness, Etiology of Unilateral Total Studied in a Series of Children and Young Adults. G. Everberg, 711.

Deafness, Nerve, Association of, with Retinitis Pigmentosa. Francis H. McGovern, 1044.

Deaf and Aphasic Children, Vestibular Responses of. Benjamin Rosenblüt, Robert Goldstein and William M. Landau, 747.

Dermatomyositis, Esophageal Defects in. F. Edmund Donoghue, R. K. Winkelmann and Herman J. Moersch, 1139.

Doctor's Responsibility to His Patient. William J. McNally, 387.

Dysphonia, Hysterical, the Whispering Syndrome of. Richard Thomas Barton, 156.

EAR Deafness, Inner, Some Physiological Factors in. Merle Lawrence, 480.

Ear, Effects of Abnormal Body Temperature upon: Heating. R. A. Cutt and W. L. Gulick, 997.

Ear, Effects of Anesthetics upon. II. Procaine Hydrochloride. W. E. Rahm, W. F. Strother, W. L. Gulick and J. F. Crump, 969.

Ear Effusions, Action of Enzymes on Human Middle. Carl F. Gessert, Elizabeth S. Baumann and Ben H. Senturia, 936.

Ear, Inner, Biochemical Changes in, Induced by Insulin in Relation to the Cochlear Microphonics. Yasushi Koide, Shigeo Tajima, Makoto Yoshida and Masaru Konno, 1083.

Ear, Inner, Pathology in Deafness Due to Mumps. J. R. Lindsay and Paul H. Ward, 918.

Ear. Localization Difficulty in Monaurally Impaired Listeners. Richard Viehweg and Richard A. Campbell, 622.

Ear, Middle, Lesions Simulating Otosclerosis. Management of. Francis A. Sooy, 540.

Ear Muscle Action, Middle, Effect of, on Certain Psycho-Physical Measurements. Scott N. Reger, 1179.

Ear Muscle, Middle, Protection from the Acoustic Trauma of Loud Continuous Sound. F. Blair Simmons, 1063.

Ear, the Effects of Abnormal Body Temperature upon the: Cooling. W. L. Gulick and R. A. Cutt, 35.

Ear. Tissue Reaction Following Reconstruction of the Oval Window in Experimental Animals. Richard J. Bellucci and Dorothy Wolff, 517.

Electron Microscopy of the Olfactory and Gustatory Pathways. A. J. de Lorenzo, 410.

Enzymes, the Action of, on Human Middle Ear Effusions. Carl F. Gessert, Elizabeth S. Baumann and Ben H. Senturia, 936.

Esophagus, Is Congenitally Short, Truly a Rare Clinical Entity? William A. Lell, 1114.

Esophageal Strictures, Treatment of. Daniel C. Baker, Jr. and George C. Hennig, 1127.

Esophageal Voice, Vocal Rehabilitation in a Boy with. Friedrich S. Brodnitz, 1098.

FRONTAL Sinus, Osteoma of. William W. Montgomery, 245.

GRANULOMA, Laryngeal, After Tracheal Intubation. Julio Quevedo, 256.

Granulomatosis, Wegener's, Findings Referable to the Upper Part of the Respiratory Tract in. Henry A. Brown and Lewis B. Woolner, 810.

Glottis, Early Invasion of the Thyroid Gland in Carcinoma of the. Ricardo Tapia Acuña, 882.

Gustation and Olfaction, Physiology of. Lloyd M. Beidler, 398.

Gustatory and Olfactory Pathways, Electron Microscopy of. A. J. de Lorenzo, 410.

HEAD and Neck Surgery, Use of Regional Flaps in. John J. Conley, 1223.

Hearing. Localization Difficulty in Monaurally Impaired Listeners. Richard Viehweg and Richard A. Campbell, 622.

Hearing and the Cerebral Cortex. Lamar Roberts, 830.

Hearing Loss, Distribution of, in Various Populations. Aram Glorig and James Nixon, 497.

Hearing Loss, Psychic Factors in. Jane C. Farley, A. J. Derbyshire, David F. Austin, William W. Waldrop, Richard L. Carter, Clarence McCormick and Peter J. Mills, 731.

Hearing Loss, Psychogenic, in Children. Robert E. Klotz, Albert W. Koch, and Thomas P. Hackett, 199.

INSULIN, Biochemical Changes in the Inner Ear Induced by, in Relation to the Cochlear Microphonics. Yasushi Koide, Shigeo Tajima, Makoto Yoshida and Masaru Konno, 1083.

Intratympanic Muscle Reflex as a Protective Mechanism Against Loud Impulsive Noise. David A. Hilding, 51.

KERATINIZATION and Vitamin A. Donald J. Lawrence, Howard A. Bern and Monte G. Steadman, 645.

LABYRINTHECTOMY. Terence Cawthorne, 1170.

Labyrinth, Membranous, Acceleration as a Means of Determining the Sensitivity of the Components of the Non-Auditory. Walter H. Johnson, J. Brydon Smith and Joseph A. Sullivan, 610.

Laryngectomy, Past, Present and Future. Norman Jesberg, 184.

Laryngocele, Internal, Treated by Endoscopic Excision and Fulguration. R. Melvin Butler and Willard F. Goff, 29.

Laryngoscopy, Microscopic Suspension. Anthony N. Scalco, William F. Shipman and Harold G. Tabb, 1134.

Larynx, Carcinoma of. Brian F. McCabe and John E. Magielski, 1013.

Larynx, Carcinoma of, Reappraisal of Seventy-Five Cases of Radical Neck Dissection for. George F. Reed and James B. Snow, Jr., 271.

Larynx, Carcinoma of, Role of Radiation Therapy in. Joseph L. Goldman and Sidney M. Silverstone, 890.

Larynx, Epithelial Neoplasms of the. James A. Maher, 73.

Larynx, Granular Cell Myoblastoma of. William L. Walter, 328.

Laryngeal Manifestations of Systemic Disease. Walter H. Maloney, 421.

Larynx, Myoblastoma of the. Stephen F. Balshi, 115.

Larynx, Technique of High-Speed Photography of. Henry J. Rubin and Maurice Le Cover, 1072.

Lateropulsion, Vestibular. Nicholas Torok and Alan Kahn, 61.

Lymphangioma of the Tonsil. George L. Harrison and Lewis A. Johnson, 961.

MELKERSON'S Syndrome. Caesar N. Abu-Jaudeh, 989.

Mikulicz Disease and Sjogren's Syndrome, the Parotid Gland in. William Garth Hemenway, 849.

Myoblastoma of the Larynx. Stephen F. Balshi, 115.

Myoblastoma of the Larynx, Granular Cell. William L. Walter, 328.

NECK and Head Surgery, Use of Regional Flaps in. John J. Conley, 1223.

Neoplasms, Epithelial, of the Larynx. James A. Maher, 73.

Neoplasms, Malignant, Diagnostic Applications of Radiophosphorus for, in Otorhinolaryngology. Ken Nagatani, 1020.

Nodulus, Lesions of the. Experimental Observations on Postural Nystagmus. César Fernandez, Rene Alzate and John R. Lindsay, 94.

Noise, Loud Impulsive, the Intratympanic Muscle Reflex as a Protective Mechanism Against. David A. Hilding, 51.

Nystagmus, Experimental Observations on Postural. II. Lesions of the Nodulus. César Fernandez, Rene Alzate and John R. Lindsay, 94.

OBITUARY, George Morrison Coates, 635.

Obituary, Felix Robert Nager, 640.

Obituary, Prof. Luigi Pietrantoni, 641.

Olfactory and Gustatory Pathways, Electron Microscopy of. A. J. de Lorenzo, 410.

Olfaction and Gustation, Physiology of. Lloyd M. Beidler, 398.

Ossicles, Auditory, Early Embryology of, and Associated Structures in Relation to Certain Anomalies Observed Clinically. Barry J. Anson, Jerome S. Hanson and Shafik F. Richany, 427.

Osteoma of the Frontal Sinus. William W. Montgomery, 245.

Otolaryngology and Comprehensive Care: A Glance into the Future. Frederick T. Hill, 976.

Otolith Organs, Loss of Counter-Rolling of the Eyes in Three Persons Presumably Without Functional. Richard C. Woellner and Ashton Graybiel, 1006.

Otorrhea, Cerebrospinal. Jose Ferrer, 88.

Otosclerosis, Management of Middle Ear Lesions Simulating. Francis A. Sooy, 540.

Otosclerosis, Vein Plug Stapedioplasty for Hearing Impairment Due to. C. M. Kos, 559.

Oval Window, Tissue Reaction Following Reconstruction of, in Experimental Animals. Richard J. Bellucci and Dorothy Wolff, 517.

PAGET'S Disease, the Temporal Bone in. Louis E. Griffey, 178.

Parotid Gland, an Unusual Case of Adenocystic Carcinoma of. William Lippy, Charles Giffin and William H. Saunders, 340.

Parotid Gland in Mikulicz Disease and Sjogren's Syndrome. William Garth Hemenway, 849.

Parotid Gland Tumors, the Sternomastoid Muscle Approach to. Robert C. Kratz, 1040.

Pharynx, Chronic Hyperplasia of the Mucous Membrane of the. J. Charles Drooker, 170.

Phonation. Clinical Testing Versus Electromyography. David W. Brewer, F. Bertram Briess and K. Faaborg-Andersen, 781.

Plasmacytoma, Extramedullary, of the Upper Air Passages. Julius W. McCall and Carl H. Bailey, Jr., 906.

Postnasal Discharge. Daniel J. Reagan, 263.

Procaine Hydrochloride. Effects of Anesthetics upon the Ear. W. E. Rahm, W. F. Strother, W. L. Gulick and J. F. Crump, 969.

Pulmonary Function Testing, Relationship to Bronchology. Albert H. Andrews, Jr. and Helen Moore, 1146.

Pulmonary Insufficiency, Permanent Tracheostomy in the Treatment of. Arthur Q. Penta and Edgar Mayer, 1157.

RADIOPHOSPHORUS, Diagnostic Applications of, for Malignant Neoplasms in Otorhinolaryngology. Ken Nagatani, 1020.

Retinitis Pigmentosa, Association of Nerve Deafness and. Francis H. McGovern, 1044.

SALIVARY Glands, Major, the Structure of Nerve Elements in, in the Human. Irving M. Blatt and William G. Bunto, 375.

Sjogren's Syndrome and Mikulicz Disease, the Parotid Gland in. Wiliam Garth Hemenway, 849.

Sound, Loud Continuous, Middle Ear Muscle Protection from the Acoustic Trauma of. F. Blair Simmons, 1063.

Stapedectomy. Harold F. Schuknecht, T. Manford McGee and Bernard H. Colman, 597.

Stapedectomy, Partial. J. V. D. Hough, 571.

Stapedioplasty, Vein Plug, for Hearing Impairment Due to Otosclerosis. C. M. Kos, 559.

Stapedoplasty, Further Observations. Arthur L. Juers, 316.

Stapes Mobilization Operations, Results of Nine Hundred and Thirty-Nine. C. M. Kos, J. L. Shapley and P. B. Iles, 206.

Stapes Mobilization, Some Unsolved Problems of. Donald K. Lewis, 222.

Stapes Surgery, an IBM Record Card for. John J. Shea, Jr., 280.

Sublingual Swellings. R. Badrawy, 1054.

TEMPERATURE, Abnormal Body, Effects upon the Ear: Heating. R. A. Cutt and W. L. Gulick, 997.

Temporal Bone in Paget's Disease. Louis E. Griffey, 178.

Temporomandibular Joint Arthrosis, the Role of Trauma in the Pathogenesis of. Ekrem Gozum, 348.

Thyroid Gland, Early Invasion of, in Carcinoma of the Glottis. Ricardo Tapia Acuña, 882.

Tonsil, Lymphangioma of the. George L. Harrison and Lewis A. Johnson, 961.

Tonsillectomy and Adenoidectomy, Blood Loss During, Measured with Radioisotopes. R. L. Ruggles, 360.

Tracheal Intubation, Laryngeal Granuloma After. Julio Quevedo, 256.

Tracheostomy, Permanent, in the Treatment of Pulmonary Insuffciency. Arthur Q. Penta and Edgar Mayer, 1157.

Tracheotomy in Head and Chest Injuries. Burton D. Bryan, 165.

Tumors, Parotid Gland, the Sternomastoid Muscle Approach to. Robert C. Kratz, 1040.

ULTRASOUND in Ear, Nose and Throat Diseases. W. D. Currier, 1030.

VESTIBULAR Responses of Some Deaf and Aphasic Children. Benjamin Rosenblüt, Robert Goldstein and William M. Landau, 747.

Visual Perception and Auditory Discrimination in Good and Poor Readers. C. P. Goetzinger, D. D. Dirks and C. J. Baer, 121.

Vitamin A and Keratinization. Donald J. Lawrence, Howard A. Bern and Monte G. Steadman, 645.
